

## Completed Survey Works - West of Orkney

Dear Sir/Madam,

This is an update on the Notice to Mariners that was shared with you on the 29<sup>th</sup> of February.

Following successful marine operations, FSL1 and FLS2 have now been recovered in their entirety. There are no remaining metocean or wind measurement equipment offshore for WOWF and seabed is now clear from any residual material.

If you have any questions or comments, please let me know.

Kind regards,  
Femke
